PEACE MEMORANDUM.
London, Aug. 10.—A special sub-committee of the British labor party executive committee has been preparing a memorandum upon the issues raised in the war and the ideas of British labor in regard to peace proposals. Briefly the memorandum is an endorsement of the demand for the reparation and restoration in behalf of Belgium and other invaded countries, a declaration in favor of the right of individual people to settle their own destinies; liberation of oppressed peoples from Turkish misgovernment and demand for the establishment for a league of nations for the maintenance of peace and the elimination of the world war. The memorandum indicates that Germany is threatening the very existence of independent nationality striking a blow at all faith in treaties and declares that the victory of Germany would be the defeat and destruction of democracy and liberty. It is further declared that the essential conditions of a treaty of peace will be the establishment of a "league of nations" adhered to by all present belligerents. The conference of the British labor party held at Westminster today voted to send delegates to the Stockholm Consultative conference by one million forty-six thousand to fifty-five thousand. The conference was in an uproar, which ended only when the result of the card vote was announced.

(By Associated Press.)
While the entente guns are still hammering the German lines in Flanders, the infantry has not been entirely inactive. Today important gains by both the British and the French on a seven-mile front, taking in Westhoek Bixchoote, are reported. British troops last night finished the task of driving the Germans from Westhoek and likewise cleared them from the lines they still were clinging onto, the ridge near the town. This forward movement gives Field Marshal Haig a better grip on the section of line immediately west of Ypres.

Silence from British.
The French near Bixchoote advanced east and north of that place. Silence from the British side reigned in the artillery battle continues. As in the period preceding the initial attack in the Flanders offensive, the German reports are the principal reliance for news of the bombardment and these continue to emphasize its importance.

Not only in Belgium, but along stretches of the Arras battle front, there are evidence of activity by the entente forces. London today reports extensive raids by the British east of Monchy in the Arras area, and day by day, reports come in of the notable work of the Canadians.

It has seemed several times that the fall of Lens was imminent, but evidently the hour has not been considered ripe to deliver the final stroke.

EVACUATE ARMENTIER.
Paris, Aug. 10.—A dispatch to the Havre agency from Hazebronek, says it was learned there that the whole population of Armentier will be evacuated. No details are given.

"KAISER WILSON"
ON BANNER
STARTS RIOT

Washington, D. C., Aug. 10.—A banner displayed at one of the white house gates by woman party suffrage pickets, addressed to "Kaiser Wilson," was torn down today after an indignant crowd had jeered and hissed the suffragette for several minutes. The banner was carried by Miss Lucy Burns. It was inscribed: "Kaiser Wilson. Have you forgotten your sympathy with the poor Germans because they are not self-governed? Twenty million women are not self-governed. Take the beam out of your own eye."

BECOMES A LAW.
Washington, Aug. 10.—The administration food control and food survey bills were signed today by President Wilson and became law.

First American Girl to
Announce She Will Join
Russian Death RegimentFrances
GiffordSECOND MAY BE
MOBILIZED HERE
UNTIL RECRUITED

Opinion Is General That Regiment
Will Be Held at Fort
Lincoln for Few Weeks

The impression is general locally that the Second regiment, which still lacks several hundred men of war strength, will be mobilized at Fort Lincoln immediately after it receives federal recognition and is mustered into the service and will be held there until vacancies in the ranks can be filled from the draft. The Second battalion of the First regiment now quartered there is expected to go in advance with the First to Palo Alto, Calif., to which it is understood North Dakota troops have been definitely assigned as part of the 20th division. While Fort Lincoln was designed as a battalion camp, it can easily be made to accommodate a regiment by transferring the commodious officers' residences into barracks and utilizing the married men's quarters. The Second is slowly receiving its equipment, and even were it compelled to use tents for shelter for the next few weeks, as did the First regiment for three months prior to its departure for the Mexican border last summer, it would be no great hardship.

The Second is practically a green regiment. Many of its officers have been rejected. It will be necessary to transfer men from one company to another, and a generally confused condition exists in the unit. All of these adjustments could be accomplished much more satisfactorily with the regiment mobilized than with the various companies at rendezvous in their home stations as at present. Recruiting in both the First and Second regiments was halted August 5, when the First was mustered into Federal service, and the mustering of the Second by companies began. The First is very near war strength, but the Second lacks approximately 600 men, who can only be supplied now from the draft.

Edinburg, N. D., Aug. 10. Forville farmers have purchased the Woodworth elevator here and will operate it as a farmers' elevator, with Ole Aledt, late manager of the Northland Elevator Co. in charge.

Declares Women Have Same Right
to Fight as Men and Believes
Many Will Follow Her Example

New York, Aug. 10.—An American girl is going to Russia to join the Russian women's "Regiment of Death."

She is Frances Gifford, 21, an artist well known among New York's colony of writers and painters. She met me at the top of the two flights of stairs over the stable in Greenwich village, where she has her studio. It was very hot, and the odor of horses as well as art permeated the atmosphere. She is a small blond girl, with great blue eyes that look into yours so earnestly that you feel she has thought a great deal on the subject of how she should do her bit in making the world safe for peace, as she insists.

She had evidently just moved into this studio, and we sat among the debris of household furniture and talked over the Russian situation, of which she has evidently been a deep student.

"Why do you want to go to Russia to fight?" I asked.
"Because," she answered, "I shall be fighting for peace, and ultimate peace will come through Russia. By fighting by the side of those brave women I shall be fighting not to make the world safe for democracy, as it is called, but to make the world safe for peace."

"Do you think woman's place is in the fighting line?" I asked.
"Why not?" she answered. "Shall not women as well as men make the world safe for the children that come after?"

"That is just the point. What will be the effect on their children if women take an active part in war?"
"None," she said. "Before and after bearing children, a woman is capable of military duty. Women have demonstrated they can endure physical hardships as well as men. They are quite as brave when facing any danger of the body or soul."

"Why don't you try to go in some capacity to America?" I asked.
"Because I do not consider America is helping the coming of peace, to me the only way that peace can come is through Russia."

As she said this, her great blue eyes became suffused with tears, but they did not fall. It was then I asked her, how old she was. And she answered: "Twenty-one."
"Aren't you rather young to decide this question for yourself in this way?"
She looked at me in surprise.
"The American army," she said, "is taking many boys of 17, 18 and 19, and they begin to draft them at 21. It has been always said that a girl is older at that age than a boy. It seems to me I am not young."

charge

CALL TO COLORS
BY AUGUSTE FIRST

Men Will Be Assembled in Board
Districts Before Mobiliz-
ation

Washington, Aug. 10.—Wholesale claims for exemption from the army draft, reported from many sections, caused Provost Marshal General Crowder to telegraph the governors of the states directing that local boards "reduce discharges for dependency to a far more restricted class and to very necessitous and clearly defined circumstances."

In some districts as high as 80 per cent of the registrants called for examination are filing claims for discharge on the ground of dependent relatives. Such a condition indicates, General Crowder said, that unfair advantage is being taken of the regulations designed to protect men who properly should be exempted from military service and actually threatens to interfere seriously with the raising of the national army.

Regulations under which men of the national army will be called to the colors beginning Sept. 1, were issued tonight by the provost marshal general. They made out in detail the whole program to be followed until every soldier of the elective draft army has been accepted by the adjutant general of the training cantonment to which he is assigned.

Two hundred thousand of the first 687,000 men will be called up to Sept. 1 and forwarded to their camps before Sept. 5.

The whole business of assembling the levies at entraining points, providing them with shelter, food and transportation and giving them their actual induction into military life is entrusted to the civilian local boards which select them for service. Until the men reach the camps they will not be in contact with uniformed officers.

Under Civilian Control.
The civilian control is carried forward through every stage of the draft to the very gates of the military camps, where the making of soldiers will begin, to be completed within sound of the guns of France.

The actual call for men will go in each case from the provost marshal general to the state adjutant general stating the number of men to be supplied at a specified time by the state. Each local board will be promptly informed of its proportion in the call and the adjutant general will fix the date when men from his state shall entrain for the camps.

Immediately the local boards will make out the list of men to fill the call from the roll of accepted men and it also will fix the place of entrainment and the exact time of departure.

Orders to the men will be posted and also sent them by mail. They will be directed to report to the local board—at its headquarters not later than 12 hours or more than 24 hours before the time of departure for camp.

"From the time specified for reporting to the local board for military duty," the regulations state, "each man in respect of whom notice to report has been posted or mailed shall be in the military service of the United States."

Find Rooms in Hotels.
Prior to the arrival of the men at the board headquarters, board members are instructed to make arrangements for their accommodation and to find clean and sanitary sleeping places at hotels and lodging houses, to arrange for their meals and to provide lodging and meal tickets to be taken in payment and redeemed for cash later by the government disbursing officer. In its discretion the boards may grant permission for the men to remain at their homes.

Arrived at the board headquarters at the hour fixed for reporting the men will be drawn up the roll called and agents of the board will take them personally to their quarters, remaining with them until every arrangement for their comfort has been made. Emphatic instructions are given that the quality of the food furnished shall be good and the board is held liable for seeing that meals are adequate.

First Military Ceremony.
Retreat roll call of the board headquarters, set for 8 p. m. on the day of reporting to the board, will be the first military ceremony the draft men pass through. The board members are directed to be present in person and to inform the men of their military status, including on their part the fact that disobedience of orders is the gravest military crime. The light band baggage consisting of toilet articles and a change of underclothing which the men are permitted to take with them to camp will be inspected by the board and the lists of men sent forward made out and copies of original registration cards prepared. For each district five alternates will be summoned to the board headquarters.

NAMES OF MEN
NOT EXEMPT TO
DISTRICT BOARD

Local Commission to Make Re-
ports Tomorrow—18 Men Un-
conditionally Accepted

CALL FOR ADDITIONAL
REGISTRANTS COMING

Probable That 200 More Names
Will Be Drawn to Fill Bur-
leigh County Quota

The Burleigh county exemption board tomorrow will certify to the state board the names of men who have been accepted after a physical examination and who have claimed no exemptions, and also the names of those who have been accepted on physical examination and who have claimed agricultural or occupational exemptions, which must be passed on by the district board.

The number is not yet determined. To date 18 men have been unconditionally accepted for service, having made no claims for exemptions on any grounds and having been found physically fit. This is not quite 20 per cent of Burleigh county's quota, and approximately 135 men have been examined to obtain this number of eligibles.

There are almost as many more who have passed the physical examination who have no dependent relatives, but who claim agricultural or industrial exemptions. The fate of these men will be determined by the district board. The total number absolutely rejected for physical disqualifications is small. The local board has not passed on claims for exemption on the ground of dependent relatives, and probably will take no action on these claims earlier than Aug. 17, which is the final day upon which the first class of registrants may file proof of exemption. Today is the last date upon which the original class of registrants may file notice of claim for exemptions.

Examinations for the first 200 registrants will continue over tomorrow. The board worked again last night until midnight, and this morning it examined 18 men. There were yet approximately 65 members of the first class of registrants to be passed on when the board met again at 2 this afternoon. This lot should be finished by noon tomorrow. It then will be the duty of the board to certify names of accepted men to the district board and also to sum up averages on which will be based a call for sufficient registrants to complete Burleigh county's quota to 110 per cent of the net, which is 89, or a total of 98. This call probably will go out Monday, and judging from results to date it will not be for less than 200 men, and probably for 300.

May See Early Service.
Advice from Provost Marshal Crowder today indicates that Burleigh county's first draft quota may be called into service Sept. 1, and may leave for cantonment Sept. 5. So far as can be learned, local select service men will train at Camp Dodge, Des Moines, Ia., where work now is in progress on one of the 18 great cantonments which is to house the national army. Only 200,000 men will be called to the colors Sept. 1, and it is not known how the various states will be ranked in this call.

MARINES FIGHT
TO KEEP CARB

American Training Camp in France, Aug. 9.—The marines of the expeditionary force will make a fight to retain their forest green uniforms against a tentative order which would place them in regular army khaki. The marines think they can arrange a necessary supply of their distinctive clothing, but army officers felt it would be perhaps better to have the entire expeditionary force in khaki. The marines hold that to abandon their distinctive dress would tend to lower the morale of the men, which, in turn, would ruin the expedition of the spirit of friendly rivalry now existing between the services.

The marines cite the case of the Alpine Chasseur in France who won their fight early in the war to retain distinctive uniforms of dark blue against an order that all French troops should wear horizon blue.

The marines today subscribed to a fund of \$50,000 to buy French war bonds the fact evoking great cheers from their French trainers.

**TWO MEATLESS DAYS
EACH WEEK ABERDEEN
HOSIERY DECREES**
Aberdeen, S. D., Aug. 10.—Two meatless days each week hereafter will be the rule at the She men hotel, announces Miss Hosiery. The meatless menus will be made as attractive as possible, and the vegetarian will have a real feast.

Frazier Says
Northwest
Is Loyal

At Fort Snelling to See Review
of Student Officers To-
day

IS JOINED THERE BY
THREE OTHER GOVERNORS

Fort Snelling, Minn., Aug. 10.—The northwest is in the great war to the finish and no section of the country will prove more loyal or more helpful in its prosecution, according to the opinion expressed by governors of three states who gathered here today to witness the review of student officers.

"North Dakota will carry its burden," said Governor Frazier, who was accompanied by Adjutant General Frazier. "The state of North Dakota is in good condition, except in the cases of some farmers, who have not had crops for two seasons."

"Iowa is no slacker state," declared Governor Harding. "We will send every available man to the front, and keep the aged and infirm to harvest the crops and plant those of next year."

"South Dakota is as loyal as any state in the union," declared Governor Norbeck. "We will have big crops this year, and we are able to handle them."

The governors were guests at an informal breakfast in St. Paul this morning. Tonight they will be guests at a banquet in St. Paul.

MAJOR STEEDMAN
RECOMMENDS 158
TO SECOND CAMP

143 Principals and 15 Alternates
Approved by North Dakota
Examining Officer

393 CANDIDATES WERE
EXAMINED IN THE STATE

Major R. S. Steedman, U. S. A., North Dakota examiner for the second officers' training camp to be opened at Fort Snelling on Aug. 27, has recommended for admission to that camp 143 candidates and 15 alternates. Notices have been sent to all candidates designated. Those who did not meet the requirements of the department will receive their notice from the central department at Chicago.

North Dakota's quota for the second officers' training camp is 113, which may be increased 30 per cent if the number of eligibles is sufficient. The quota will not be increased, however, if there is not an abundance of good material.

Major Steedman announces that 120 candidates were physically disqualified, 100 were found under the required standard in other respects, and 15 candidates withdrew after filing their applications. A considerable number of candidates were not considered at all, as manifestly unfit, and were not directed to report for medical examination.

About 486 applications were filed with Major Steedman from all parts of the state, and 423 were directed to report for examination. Of this number, 393 were examined, 158 were accepted as principals and alternates, and 235 were rejected.

The list follows.

COMPENSATION
FOR SOLDIERS
IS OUTLINED

Insurance for Fighters Provided
in Bill Introduced by
Simmons

M'ADOO CHAMPIONS
GOVERNMENT RELIEF ACT

Indemnities for Disability Range
From \$40.00 to \$200.00 a
Month

Washington, D. C., Aug. 10.—Authority to make effective the government's program of insuring the armed forces of the nation was sought of congress today in bills introduced in both houses by Senator Simmons and Representative Alexander.

The proposed legislation was framed to follow plans already announced in general outline and would provide insurance at minimum cost for American soldiers, sailors and marines, the insured men paying the premium; family allowances to dependents of men in the nation's military or naval service; indemnification for disabilities and the re-education and rehabilitation at government expense of injured men.

Allot a Minimum.
A feature would make it compulsory for officers and men to allot a minimum of \$15.00 a month of their pay to dependent wives and children. The maximum compulsory allotment is half pay. These allotments would be supplemented by family allowances to be made by the government of \$5 to \$50 a month, according to the circumstances and number of dependents.

Liberal indemnities for partial and total disability are included in the program, varying from \$40 to \$75 per month minimum up to \$200 a month for higher officers. Insurance would be written by the government on lives of the men at a rate approximately \$8 per thousand in sums of \$1,000 to \$10,000, the premiums payable in installments.

Cost \$555,550,000.
"The total cost to the government for two years is placed at \$555,550,000, which Secretary McAdoo estimates at less than six per cent of the cost to the country of conducting the war. Children up to 18 years of age, or those older, who are unable to work, and wives of men and officers, would be given family allowances. The amount would depend on the size of the family, the allotment made by the husband or father out of his pay and other circumstances to be determined in each individual case.

The bill does not attempt to cover the method to be pursued in re-education and rehabilitating injured men. Two principles, however, are recognized.

Disability Compensation.
The man's obligation to avail himself of such opportunities as the government may provide under penalty of loss of compensation for "any period of unreasonable refusal," and a man's rights to disability compensation regardless of his individual economic recuperation. The amount of indemnities paid in case of partial disability, however, would vary from time to time, according to the altered circumstances of the man insured.

"Assume that a man was totally disabled by losing both legs and arms," Mr. McAdoo wrote the president, by way of illustration, "under the compensation of this bill if he were a private and unmarried, he would receive \$10 a month, and if he needed a nurse or attendant he would receive up to \$20 additional."

Aid for Dependents.
"If he had a widowed mother dependent upon him for support he would get another \$10. If he subsequently married, his compensation would be increased at once by \$15. If, later on, he had children, the compensation would again be increased \$10 per month for each of the first two children, a possible maximum of \$105 per month."

"In addition to this monthly payment he would be fitted with artificial limbs and have treatments. His compensation for pensions would not be affected by any increased earnings."

When disability results in death, dependents would receive from \$15 to \$50 per month, the sum again being rated according to the circumstance of the dependents. This feature of the program is regardless of the insurance which the man or officer may take if he wishes to pay the premium there for himself."

FINO'S LETTERS
TO KAISER WILL
BE EXPOSED

London, Aug. 10.—A dispatch to the Times from Athens says the government has discovered correspondence between Emperor William of Germany and Ex-King Constantine and will lay it before the chamber.

MACHINE GUN COMPANY LION OF THE HOUR

Nothing in Dickinson Too Good
for Members of Second Regi-
ment Organization

Dickinson, N. D., Aug. 10.—Dickinson's crack machine gun company members have been guests of the city at several social functions this week Monday evening the Patriotic aid and Commercial club gave the boys a royal good time in the armory with a program dance and feed. On Wednesday evening the boys, appearing very smart in their new uniforms, were guests of the Young Ladies' Red Cross auxiliary at an armory hop.

A large number of the company residing outside of the city found their pay from Uncle Sam rather meager to meet hotel and restaurant prices, and citizens early this week provided blankets for bunking in the armory, and the Elks and others assisted the boys in getting together a housekeeping outfit, three tents being pitched on the armory grounds. The boys were fortunate in having a full-fledged chef among their number, and are very happy over their new cuisine. All these good times have not interfered with the heavy practice which has gone steadily on under Lieut. Fleury.

CHUMACK INSANE; ATTACKS SHERIFF IN COUNTY JAIL

Predicted That Slayer of Caldwell
Will Be Tried by In-
sanity Board Soon

Dickinson, N. D., Aug. 10.—Mike Chumack, the slayer of James H. Caldwell and wife, at the Caldwell homestead southeast of Gladstone, early this morning, became violently insane. He attacked Sheriff T. N. Hartung, tearing off his clothing and making it necessary for the sheriff to call three assistants into the cell before the prisoner could be subdued and handcuffs placed on him. H. A. Burgeson, state's attorney, has always been under the impression that Chumack was putting on insanity, but developments the past few days have convinced him to the contrary. A hearing had already been set for August 13 in the Chumack case, and

HERE'S THE FIRST DAY'S MARCH OF UNCLE SAM'S NEW NATIONAL ARMY

Feet that will tramp the fields of France tramped the city's streets in the first of many marches—the parade of part of Chicago's quota in the national selective service army. Without uniforms as yet, they nevertheless start the flag on its long journey toward the Rhine.

as it is impossible to try an insane person on the merits of the case, it is expected that Judge W. C. Crawford will take judicial notice of Chumack's condition and have him taken before the insanity board at once.

Railroad Men Hurt But Mascot Escapes Without One Scratch

Marmarth, N. D., Aug. 10.—Engineer "Bill" Davis, Fireman Taylor and brakeman Al Dorsey of the Milwaukee line were seriously injured when their big engine, ran off the McIntosh switch and stopped over, but a puppy which Dorsey was carrying as a mascot came out of the smashup unscathed. The injured men are in the Moberg hospital.

"All in a Day's Work," Says Messenger Boy as Truck Runs Over Him

Aberdeen, S. D., Aug. 10.—"It's all in a day's work," said Howard Blake, 10-year-old messenger boy, as he picked himself up and brushed off his clothes after the front wheel of a fugger Transfer Co truck had passed over his stomach. He waved would-be rescuers aside, rescued his bicycle and proceeded on his way to deliver a message. "It's the second time that's happened this summer, and I'm getting used to it," said the lad with the reinforced steel frame.

FOR TAXI SERVICE PHONE 342

Mandan News Bureau MORTON COUNTY DRAFT MACHINERY WILL GET TO WORK NEXT MONDAY

Everything in Readiness for Examination of Registrants—Three
Classes of Candidates Called to Report on Separate Days—
State's Attorney Connolly to Take Exceptions From Rulings
of Local Board When He Deems Step Necessary; Assistant Medical Examiner Appointed.

Morton county's draft machinery will start to work Monday morning at 9 o'clock. It is predicted that about 75 per cent will claim exemption on the first draft and that 50 per cent will be exempt. It is also predicted that all married men will be exempted the first call at least. Judge Hanley has given the use of his chambers to the draft officers, and the court rooms will be headquarters for the men who have been summoned to appear for examination Monday morning.

Lists Compiled.
The county exemption board, which consists of Sheriff Oscar Olson, County Auditor Lee Nichols and Dr. G. H. Spielman, has compiled all lists and the names are posted in the county auditor's office as well as in various places in the city and county. The first list calls 100, who are to appear Monday morning, the second list calls 100 who are to appear for examination on Wednesday. Everybody is in duty bound to appear for examination. No one is excused from not being present when his number is called for examination.

Attain to Assist.
Dr. H. O. Altman was named by Governor Frazier on Monday to assist Dr. Spielman in making the initial examination. The chambers of Judge Hanley have been designated as the place where the private examination will be made. All blanks will be furnished the draftees before they are admitted to the examination room. A dressing room has been arranged for and

FRANCE SENDS M. D.

COL. E. DEROLE

Col. Derole of the French medical staff has been sent here with other specialists to take part in the deliberations of the council of national defense and advise United States army men for organization of the army based on French and English experience.

TWO ORGANIZATIONS GROW OUT OF ANNUAL SUNDAY SCHOOL MEET

Both Grant and Morton Now
Have Active Sunday School
Associations

Two organizations grew out of one at the annual meeting of the Sunday school association of Morton and Grant counties held at Lark last Saturday and Sunday, when a full quota of officers was elected for both Morton and Grant counties. About 50 delegates representing 16 schools were in attendance and with the visitors the audiences ran upwards of 200.

The new Grant county president is Glenn Roberts, residing south of Lark. The Morton county official roster is as follows: John Bollinger of Flasher, president; Clarence Stolberg of Flasher, vice president; H. M. Penning of Mandan, treasurer; May Storey of Flasher, secretary; Lena Bollinger of Flasher, elementary superintendent; Ethel Haight of Mandan, secondary superintendent; Clarence Stolberg of Flasher, adult superintendent; C. L. Robertson of Hebron, administrative chairman; Roy Roberts of Mandan, educational superintendent.

Aside from Secretary James Garrison of the state association, addresses on various topics were heard from George Waldron, George Roberts and Glenn Roberts of Lark, M. A. Cat, John Bollinger and May Storey of Flasher, Mrs. Lovelace and the Rev. C. A. Falcoim of New Salem, Edward Roberts of Wisconsin, Eben Russell of Long Butte, and the Rev. E. C. Fenton of Brinsford. Music was furnished by the Rev. D. K. Ford and Georgia and Adeline Lawler, of Lark, John and Pearl Bollinger of Flasher, and a number of Lark Sunday school classes.

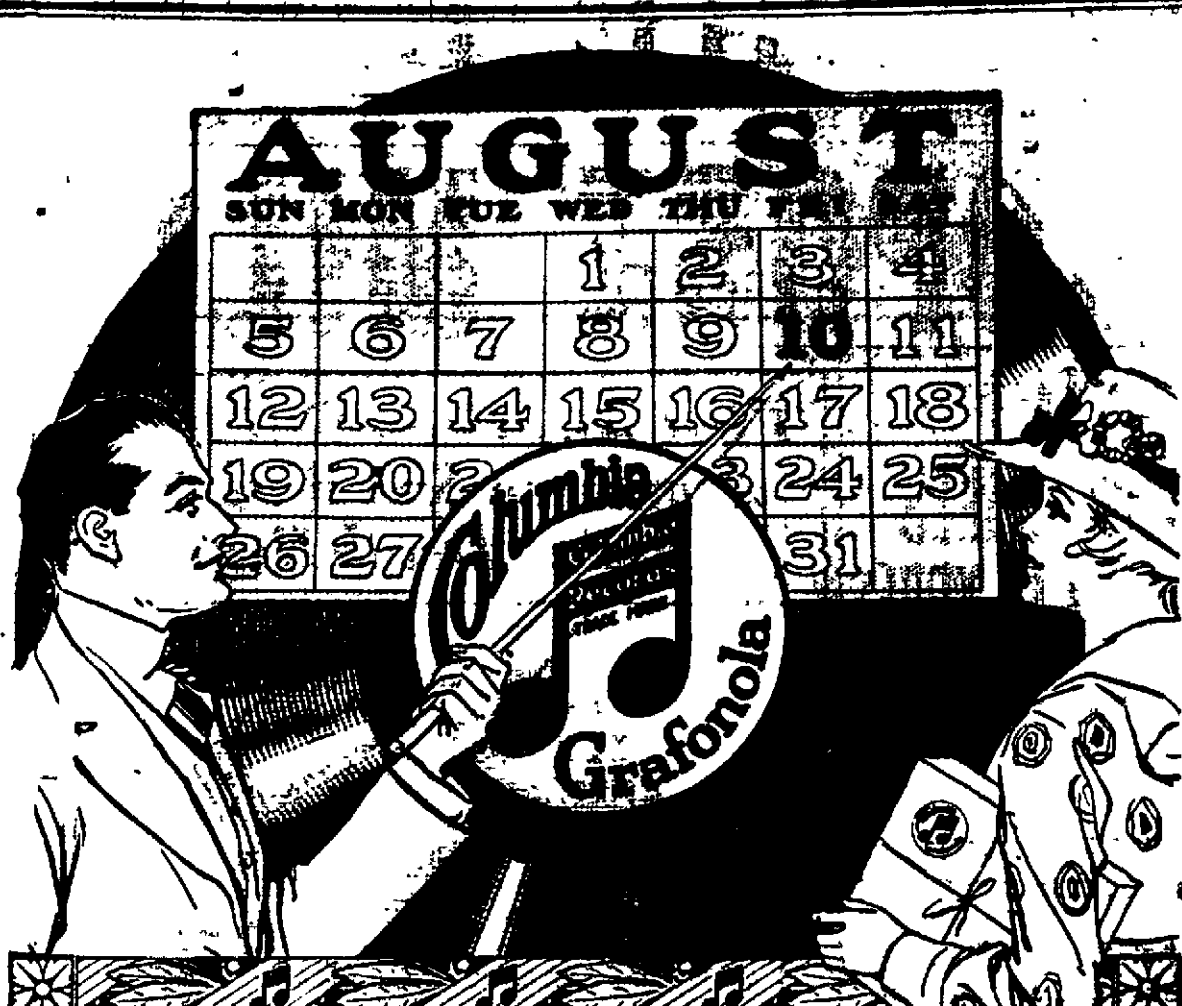

The Sunday schools represented at the gathering, which closed Sunday evening after an unusually helpful convention, were Flasher, Long Butte, Pleasant Valley, Lark, Raleigh, Leith, Green Valley, New Home, Caledonia, Mandan, M. E. Timmer, Coal Hill, Valley View, Point Butte, Brinsford, and New Salem.

The meeting places for next year's convention in each county were not chosen at this time.

FORT BERTHOLD GIVES INDIAN BOYS FAREWELL

Boulah, N. D., Aug. 10.—Ernest Fox, Johnnie Star, C. L. Soldier and Joseph Young Hawk, the largest delegation of Fort Berthold Indian boys to enlist in one group, were serenaded by the Boulah band when they left for Bismarck to join Co. 1 of the Second regiment.

WOMAN UNCONSCIOUS Bolt of Lightning Seriously In- jures Milton Matron

Milton, N. D., Aug. 10.—Mrs. Hugh Douglas remained unconscious for hours following a shock from a bolt of lightning which struck her home. She was finally revived, but has not yet fully recovered.

LaFollette's Nephew Makes Good When Wife Calls Him a Deserter

Jamestown, N. D., Aug. 10.—When Mrs. L. M. Mahtor of St. Paul, whose husband, a nephew of Senator Bob LaFollette, is employed as a harvest hand near here, caused the arrest of her better half on a charge of non-support, Mahtor pulled out a roll representing his first month's wages, peeled from it one sixth bill for him-

self, and handed the remainder over to Sheriff Ross. He relayed it to Mrs. Mahtor, who immediately relented and sent back word for her husband to stay here and hop to it, which he is doing at the highest wages ever paid harvest hands in North Dakota.

War Department Reports Palo Alto, Calif., Will Be Ready by August 15

SOLDIERS ANXIOUS TO
GET DOWN TO BUSINESS

North Dakota guard regiments are anxiously awaiting marching orders. Except as to the four companies of the Second battalion, First regiment, from Bismarck, Mandan, Dickinson and Jamestown, these troops are quartered at their home stations and the monotony of constant drill with none of the excitement of camp life is beginning to tell on the morale of the soldiers. Feasts and banquets, boxes from home and candy from fair admirers is not tending to put the boys in better fighting trim, and their commanders are as anxious as they to see the regiments mobilized somewhere. Word comes from the war department to the effect that the camp at Palo Alto, Calif., to which the North Dakota regiments are assigned, will be ready for occupancy August 15, as originally scheduled. If this proves true, the First regiment may receive orders to move at a very early date. Neither regiment is completely equipped with both equipment and ordnance. The Second has just begun to receive its uniforms and clothing, and has nothing as yet in the way of blankets.

At Palo Alto spur trackage has been completed for 36 cars; work is in progress on stables, 1,250,000 feet of lumber has been delivered, and the balance has begun to arrive. Delivery of piping is being made at the rate of \$3,000 feet per day. About 4,500,000 feet of lumber and 19 miles of piping will be required for each camp. Work also is in progress on the 88th division cantonment at Des Moines, Ia., where North Dakota's draft army is expected to train. Charles Weitz & Sons of Des Moines have the contract, and M. A. Luther is the constructing quartermaster.

FIRST AMERICAN GIRL
TO JOIN RUSSIAN
DEATH REGIMENT

Continued from page 1.
to me that that answers your question." Miss Gifford's childish appearance is contradicted by her brilliant mind. In her blue linen "middy" suit, with its white linen collar and cuffs and her bobbed hair, she looked like a high school girl. But she speaks with the authority and poise of a woman of 30. She will probably be in the Russian ranks in October, as she has made all arrangements to that end. Russia furnished the first as well as the latest women's fighting legions mentioned in history. The Amazons, of whom Herodotus wrote and concerning whom many traditions have come down the centuries, were of the tribes of Scythians who lived anciently near Pontus, on the Black sea, and made numerous expeditions into Asia

Minor, Arabia, Syria and Egypt. They were reported to be more terrible fighters than the men. The Scythian strains prevailed in the modern Mamelukes, or Great-Russian, races. Bands of woman warriors in Bohemia during the eight century, led by Vlasta, carried on a war against the duke of Bohemia. They enslaved or put to death all men who fell into their hands. During the sixteenth century, the Spanish explorer Orellana was fought by bands of native fighting women on the river Marañon in South America. He named the river the "Amazon" because of this. The native troops of Dahomey in Africa in modern times, contained bands of women fighters, but since the French protectorate was established over this part of Africa, women have been barred from the armies. In the war for conquest of Zululand in South Africa, the British troops met large, organized battalions of Zulu women.

GOVERNOR FRAZIER
ASKS MAJOR FROM
SECRETARY OF WAR

Urges That Department Not Enforce Raising That Would Throw Out Officers

Governor Lynn J. Frazier last night wired Brigadier General W. K. Mann, chief of militia bureau, asking that the age limit be waived in the case of Second regiment field and staff officers who are too old for their grade. This condition prevails in the case of Colonel Frank White of Valley City; Lieutenant Colonel T. H. Tharalson of Grafton; Major Charles Mudgett of Valley City; Battalion Adjutant Ernest A. Orchard and a number of other officers. Those named are approximately five years older than the limit for their grade, all of these named but one having served in the war with Spain and a majority as commissioned officers.

ters, in addition to the men actually selected to fill the board quota. They will be held at the assembling point until train time, to fill the vacancies should any men of the levy fail to report. Except for retreat roll call, the men will be given town liberty until 45 minutes before train time. In opening the senate debate on the \$2,006,970,000 war tax bill today, Senator Simmons, chairman of the senate finance committee declared the committee's purpose in revising the federal revenue for extra war expenditures, without injustice to rich or poor, individuals or corporations, and without entering source from which the new future taxes must come. The bill, Senator Simmons said, proposes to raise a large proportion of war revenues by direct taxation and less bonds, distributing the war burden between the present and future generations. He pointed out

The canning season is now on

The canning season is now here but some of the fruits and vegetables are scarce for canning. We will do all we can to have a good supply on hand next week but can make no promises. Raspberries today can be had at \$4.00 per crate and peaches at, per crate \$1.65

We think Raspberries will all be gone soon and hope peaches will be more abundant and lower in price.

But we are able to offer canned goods in case lots lower now than they can be put up at home. But these prices will soon advance and we advise buying in case lots now.

THE ALIEN.

What has struck the thoughtful American in connection with our war preparations is native and naturalized Americans are being made to bear their full part in fighting the country's battles, while the alien enjoys all our liberties and privileges and is subject to none of the duties. The draft applies to Americans born here or made citizens, and not to the man who did not think enough of the blessings he enjoyed here to cease being an alien.

Of course, no one wants alien enemies in our armies and we are ready and willing to acknowledge international law forbids forcing natives of neutral countries to help fight our battles and thus take part in a quarrel from which their rulers have refrained.

But the same thing does not apply to the hundreds of thousands of aliens who are natives of countries at war with Germany. If they were at home at the present time they would be in the armies of France, England, Russia and Italy. It is, therefore, no more than right and just that they be compelled to do their part in this fight for democracy.

The McCumber resolution adopted by the United States senate looks to that consummation. It provides the president shall negotiate with the allies for consent to draft their nation also in our armies. The government has already started negotiations and these should be pushed to a conclusion with utmost rapidity.

When millions of men of the allied countries are in trenches and we are preparing to send millions of our own boys to battle, it should not be difficult to reach an agreement with the allies whereby another great source of man power might be tapped for the common cause. Every able-bodied young Englishman, Frenchman, Italian and Italian in this country, not naturalized, should be available for military purposes.

We can't afford to ship them across to their native lands so they can join the home armies, but we can certainly make use of them in our own military bodies. By fighting with us, they will also be fighting for their native lands. They will be fighting the Kaiser. They will be doing their bit. They will not be in the position of specially favored slackers, protected in their immunity from service both by America and the allies. They will not be left here to take the pick of the jobs, while real Americans are doing the fighting. They will not remain here to do all the prospering while other men make all the sacrifices.

Their place is on the firing line. America wants them there along side her own sons. And the allies, doubtless, want them there too. The allies could not hold a rod in pickle for the slacker at home and at the same time, encourage and protect the slacker abroad.

Seventy-three thousand men have applied for places in the second officers' training camps. We suggest an army of officers, even if we do thereby expose our military ignorance.

CREDIT IS DUE.

Governor Frazier, Adjutant General Fraser and Senator McCumber deserve special credit for the energetic manner in which they secured recognition of the Second regiment. Brigadier General Mann has admitted his error and absolved local military authorities from any blame. But North Dakota might have lost the unit unless the governor and his military aide, assisted by Senator McCumber, did not step into the breach. Governor Frazier has made an especially fine appointment in Colonel White of Valley City who is every inch a soldier. He will see that the regiment is 100 per cent efficient. Politics will not enter into regimental administration when once Colonel White is truly in the saddle.

The Second regiment gives fine promise of bringing new glory to the state.

But let us give credit where credit is due for protecting this unit and giving North Dakota a second regiment of national guard, a fit recognition of the growth and importance of the state in national defense.

"War is God's laundry," says a Chicago mother. Yet, after three long years of washing, God has not yet touched the Kaiser and his bunch.

BENEFIT CONCERT.

Every seat of the Auditorium should be filled next Saturday evening, when a benefit concert is given for the members of Companies A and I, the band and the headquarters company of the Second regiment.

The same spirit should be shown which raised more than \$22,000 for the Red Cross in Burleigh county. These companies should have a fund now that will assist the boys in securing more than the government rations permit. Seventy-five cents a day in these times of soaring prices means barely enough of plain food without any trimmings.

Proceeds from this concert should form the nucleus of a company fund that will be increased from time to time. It will be necessary to form a home auxiliary to administer a fund for the benefit of the Bismarck boys. That can be worked out later and the need of securing contributions determined when the pressing emergency arises.

But the organizations are without money or special funds now and this concert will assist materially in tiding things over until some form of permanent company fund is evolved.

The band is meritorious. Bismarck has shown and the caliber of the programs given. It will be a source of delight for the boys in the training camp and later when they are some where in France preparing to fight the battle that is going to make this world safe for democracy.

Everyone pitch in. If you cannot give your dollar.

Should you not know where to send the dollar, The Tribune will be glad to receive any donation and place it in the proper hands.

Cabbage crop so big that United States agricultural department urges big making of sauerkraut. All right, but somebody's got to get up a less German name for it.

MAKE SERVICE WORTHY.

President Wilson has aptly defined this war on Prussianism as a war to make the world safe for democracy. As the greatest democracy, we have joined France, Great Britain and their allies, believing that to keep America safe for democracy we must make the world safe for democracy.

We have become convinced that to maintain our economic supremacy we must be as strong a military nation as we are strong industrially and economically. That is our only peace insurance.

Our military organization cannot be absolutely democratic. Russia recently tried that with disastrous results. It cannot be monarchical or aristocratic, since a nation can no more be half democratic and half monarchical than it can be half free and half slave. Our military organization, then, should be democratic enough to develop the largest number of men potentially strong as ruler, rather than a few men to direct and many blindly to obey the monarchical plan.

OUR SOLDIERS, FROM THE LOWEST RANK TO THE HIGHEST, MUST BE RESPECTABLE AND REPUTABLE.

The common soldier should be socially the equal of the men in the class from which he is called to the service.

He must be able to wage large enough to enable him to secure and enjoy intellectual culture.

There should be universal obligatory service. That is, every young man should be subject to army service, to begin not earlier than the first of his eighteenth year and not later than the first of his nineteenth. Each year not less than a half million young men should be called to the color.

These young men, during their legal minority, should be clothed, lodged and fed by the government, and re-

ceive but a portion of their soldiers' wages.

When honorably transferred to the reserve, they should receive the residue in a lump sum.

Their wages should be larger, rather than less, than the average industrial wage.

The two or three army years of the pupil soldier would be years devoted to the nation. If he were not in the army, to school or college education, trade apprenticeship, or business training. As he couldn't advance in trade or business while in the army, his army pay should be larger than trade or business wages.

It is not good for either the young men or the country, that the marriage of these young men be too long postponed. The lump sum at the end of military service would help make it possible and advisable for him to marry early.

THREE DOLLARS A DAY, during their active training, should not be considered too much.

It should be considered a badge of honor for a young man to be selected by draft to enter the army. Why not? He would, naturally, be selected only by reason of examination proving physical, intellectual and moral superiority to others competing with him for the honor.

One of the greatest evils, perhaps, of barracks life in peace is the necessary idleness, mitigated by ordinary conditions only by harsh, frequently useless, training and discipline and labor imposed by officers.

The barracks life of these young pupil soldiers should be similar to boarding school life, or industrial life.

Only necessary hours should be devoted to military training. Others should be spent in military study. But still others should be devoted to industrial and business training—never forgetting the boys' physical, mental and moral needs for considerable sport and recreation.

Every pupil soldier should be a candidate for military office, promoted according to merit, so that all army officers should be recruited from the conscripts.

No mawkish sentimentality should stand in the way of having the most vigorous and effective men in command. In almost every other business in America today men are promoted for merit, rather than seniority. It should be so in this democratic army.

Make America a strong military nation. Make the army democratic. Make the army a great national college. Pay pupil soldiers three dollars a day during training service. THIS WILL HELP KEEP AMERICA SAFE FOR DEMOCRACY.

Ladies with marling designs on their skirts should take warning. Gen. Crowder now announces that brides of fellows who try to escape the draft by marriage can be prosecuted. Love, beautiful love, still remains the good sound reason for diving into matrimony.

WHEN WOMAN WANTS.
 (Portland Oregonian)

The suffragette, who are silently picking the White House registration figures in Oregon that is if they are capable of reasoning by analogy.

One-third of the women voters in Oregon do not dare enough about the franchise privilege to exercise it. The sexes are about numerically the same, out 181,191 men and on the registration list and only 121,578 women.

It is far from our intention to imply that two-thirds of the women should be denied the right to vote because the other third prefers not to vote. The point to be made, rather, is that when two-thirds of the women want the voting privilege, the men, as Oregon has demonstrated, are quite likely to grant it.

In those states where equal suffrage has not been conferred it is a pretty safe guess that a majority of the women are indifferent about it. This is known to be true in the south, particularly. The suffragettes are particularly in the wrong place. Their best chance is in the benighted states, instructing their sisters in the blessings of participation in government. Once woman really wants a thing she will get it.

THAT "RICH MAN'S WAR,"

(Independent)

"This is a rich man's war and a poor man's fight," is the stock phrase of the anti-war agitator and few people have taken the trouble to investigate its fallacy. But a moment's reflection should convince anyone capable of thought that a war fought by means of compulsory military service is not only the poor man's fight. In fact, the proportion of poor men who will be exempted by the selective draft is very much greater than that of the rich. The average son of a poor man, aged 22, is at college or doing nothing in a business office. The average poor boy at that age is hard at work on the farm or in the factory and stands a good chance of being exempted. The average wealthy married man has a wife with an independent income. The average poor man of family has dependents who must look to him for support. He, too, may be exempted.

The average well-to-do man is physically fit because of his outdoor sports and hobbies, he stands less chance of exemption than the ten-dollar-a-week clerk or factory operative who tends a machine indoors the whole day long.

How about the first clause of the phrase "In what sense is this a rich man's war?" For every wealthy man whom war makes wealthier it ruins ten. This war is a conflict between the political system known as democracy and that which rests on hereditary caste, deciding which of the two shall dominate continental Europe to begin with, and afterward the world. Who has the more at stake? The rich man in a feudalistic system can purchase honors and dignities; if he finds political conditions oppressive he can buy his way into the ruling class or spend his life in travel. His chief interest in free government is altruistic. It is the poor man who would be helpless in the grip of Kaiserism. It would not be wholly accurate, but it would be much closer to the truth to say that, "This is a poor man's war and a rich man's fight."

THE GERMAN PRESS.

(New York Times.)

When we come to the German-language press we have to wonder whom, in this country, it represents. The president of the German-American Alliance of Tennessee writes that many of its members have stopped their subscriptions to such papers. It was a natural thing for loyal men to do. Much of the German-language press in this country has been and is steadily pro-German. It has shown eager water on the American cause and the American preparations for war. It abuses and sneers at the allies, especially England. Now that the German plan of world-domination is hopeless, the German-language press, as a whole, seems to be standing for a German peace, for the status quo ante, for the salvage of as much as is possible of the German hopes. A peace victorious for democracy and ending the German terror to the world is not to the mind of most of the German-language papers. By direction and indirectness, by suppression of the truth, insinuation, in many ways it seeks to bolster up Germany. In the midst of a war with Germany, this is a curious attitude, an attitude that can hardly continue. Is the German-language press loyal?

What of the Alien? How Shall He do War Duty?

President, State Department and Congress Sift Work on Most Perplexing War Problem—Bills Would Prevent 1,300,000 Aliens From Escaping Their Share of War Tasks While Americans Fight for Them.

By MILTON BRONER.

Washington, D. C., Aug. 10.—WHAT OF THE ALIEN?

While we are drafting native and naturalized Americans for our armies are over 1,300,000 aliens of draft age, enjoying all the liberties and privileges of this country, to go scot-free of war duties?

This question, among the knottiest of the war, is constantly being fired at the president, the war and state departments and the congress, and is split far from solution.

When it tackles the subject, the government has to recognize that international law protects this alien from military duty and also that there are three kinds of aliens.

1. Natives of countries at war with Germany.
 2. Natives of Germany or allied countries.
 3. Natives of neutral countries.

So far only one affirmative action has been taken. A resolution by Senator McCumber of North Dakota has been adopted directing the president to negotiate with European nations at war against the central powers, to draft their alien citizens in this country for our armies.

The president and state department both favored this resolution, applying to natives of Great Britain, France, Italy, Russia, Serbia, Belgium, Rumania and Portugal.

It would effect the French-Canadians and Portuguese so numerous in New England, and about 400,000 able-bodied Italians. It would not apply to Poles, Bohemians, Croats, Jugoslavs, etc., numerous in Ohio, Pennsylvania and the middle west. They are subjects of Austria-Hungary. If drafted in our armies and captured, they might be subjected to the death penalty as traitors.

Similarly the McCumber resolution does not apply to aliens from Norway, Sweden, Denmark, Holland, Spain and Switzerland. The Scandinavians are especially numerous in the northwest. Their countries are neutral, and it violates international law to force them out of their neutrality.

Senator Chamberlain, military affairs chairman, intends to push his own joint resolution, aimed to reach a far larger class than the McCumber resolution. Chamberlain proposes to take citizens of all allies and of the neutrals, and even to use aliens from enemy countries.

His resolution fully provides that all aliens resident in this country more than a year shall be subject to draft provided they are not subjects

TREATY EXEMPTS	THESE COUNTRIES
These countries have specific treaties exempting their nationals from military service in the United States	Argentina, Paraguay, Costa Rica, Serbia, Honduras, Spain, Italy, Switzerland, Japan.

of an enemy country, or unless their native land has a specific treaty exempting them. But if the diplomatic representative of the country waives the exemption, the alien cannot claim it unless he leaves the country within 90 days.

To show the difference between the McCumber and Chamberlain resolutions, Italy has a treaty exempting its natives from compulsory military service here. Under the McCumber resolution the state department is seeking Italy's consent to draft unaturalized Italians. Under the Chamberlain resolution these Italian would be exempt unless the Italian ambassador told us to go ahead.

Furthermore the Chamberlain measure would affect all the Scandinavians and Dutch because their countries have no specific exemption treaties.

It also provides subjects of any enemy country shall be classified, and specific classes, not deemed suitable for military service, may, under order of the president, be used for other purposes during the war.

This would open the way, for instance, to draft races like the Bohemians, Croats, etc., subjects of Austria-Hungary but hating the rulers of their native land. Races not thus drafted could be utilized in farming, manufacturing, etc.

Congressman Henry Burnett of Alabama has introduced a bill providing that any alien, native of a country at war with Germany, who but for his alienage would be subject to draft and claims exemption on that account, shall forever be denied the right to become an American citizen and shall be reported to his native country as soon as practicable.

It also authorizes the president to draft any alien in this country no matter what his native land, to perform any kind of labor designated, in farms, factories or elsewhere. The president may exempt from this aliens he may deem dangerous.

MAJOR SETTLE RECEIVES PROMOTION GRATIFYING TO FRIENDS IN BISMARCK

Chief Mustering Officer for North Dakota Advanced to Lieutenant Colonelcy

Major Douglas W. Settle, who has had charge of the mustering of North Dakota's state troops, was promoted to the 41st infantry, his rank to date from May 15, 1917. Major Settle came to Bismarck several weeks ago to assume charge of the muster, and his courtesy and efficiency have won him many friends. It is understood that another federal officer has been appointed by General Barry of the central department to finally pass upon the Second regiment before the latter's recognition.

Youngster Dragged And Killed; Saddle Turns; Pony Scared

Willow City, N. D., Aug. 10.—Jake Cole, aged 12, living west of this city, was killed when his saddle turned with him and, with his foot caught in the stirrup, he was dragged for several miles before the frightened horse came to a stop. The boy was dying when his father, Jacob Cole, Sr., found him.

Bismarck Maids Selling Tickets For 2nd Regiment Band Concert

A bevy of Bismarck maidens are canvassing the city, selling tickets for the concert Saturday evening in the Bismarck Auditorium which will be given by the Second regiment band under the direction of Mr. Bachman. They are working hard to secure a capacity house to greet the boys.

The band will appear in the new uniforms, which arrived this week. National colors will ornament the stage and give it a military setting. The program will include classical numbers as well as the more popular patriotic music.

Mandan Women Doing Work for Red Cross

Mandan women have responded liberally to the call for workers for the Red Cross. Between 25 and 30 women have been working Tuesday and Friday afternoon of each week sewing on the various articles. Although they have accomplished splendid results many more women are needed and a call has gone out from the headquarters in the high school building for more workers.

Those interested in the movement are making a canvass for pieces of clothing flannels to make fracture pillows. All that is asked in addition to the material that they are perfect is clean.

A number of workers have started to knit khaki colored wool trench coats. Enough yarn has been ordered for 100 and the campaign for knitters is now on.

Sacred Concert.
A sacred concert has been announced for Sunday evening in the new Mandan Presbyterian church. Members of the choir will present the program, assisted by a number of people who are visiting in that city. The concert will take the place of the evening service.

Mr. Cushing Here.
Mrs. F. Cushing of Fargo, but formerly of this place, arrived in the city last evening from Minot, where she had been for several days. She is the guest while here of Mr. and Mrs. F. E. Luebe of First street. Mrs. Cushing is assistant editor of the Fargo Post.

To Visit in East.
Mrs. C. L. Zeigler and three children of Avenue B will leave next week for an extended eastern trip to include points in Virginia, Washington D. C., and New York city. While in Virginia Mrs. Zeigler will visit her mother, Mrs. Poston of Round Hill. In Washington she will visit her sister.

Visiting in Town.
Mr. and Mrs. H. J. Woodmansee and son Joseph and Judge and Mrs. A. M. Christianson of Fifth street, motored today to Towner, where they will be the guests of friends. Mrs. Woodmansee will remain there for several days while other members of the party will return the first of the week.

Concludes Visit.
Mrs. F. C. Semmermeyer of Marietta, Minn., has returned to her home after a visit with her parents. Mr. and Mrs. L. McBride of Arnold, who was accompanied as far as Valley City by her brothers, Ralph and Chauncey, the former will go to Harvey, where he will join Company H, and the latter to Norfolk, Va., where he will enter the naval training camp.

New Musical Director.
Sister Hilary of St. Joseph, Minn., has arrived in the city and has assumed the directorship of the musical department of St. Mary's school. She is arranging to meet prospective pupils for the opening of the school year after Aug. 15. Sister Hilary succeeds Sister Anastasia, who had been connected with the school for a number of years. Sisters Edith and Mariella, also teachers at the school, have returned to take up their duties.

Black and White Square Beads Lead

BY BETTY BROWN

New York, August 9. Black and white is the power in jewelry of good taste and fashion. And beads are no longer round. Square beads and cube beads are the fall contribution for bickies, girdles, necklaces, etc. The bead necklace shows the square, or cube beads, in white. The jeweled girdle displays the oblong, or square, ornaments of charming lines and designs, of a precise combination of black and white, effective without being garish.

WAR HAS ONLY ONE DEFINITION FOR KITCHEN ECONOMY—THAT'S FOOD CONSERVATION

BY BIDDY BYE.
Housewives have their own definitions of kitchen economy. Now comes war and rolls them all into one. And war allows no exemptions from service in the cause of food conservation.
But many housewives who have always had the habit of doing their best, which means their utmost, find it a bit difficult to discover new ways of saving. Recipes for canning tomatoes fail to interest them, but they delight in new, odd and uncommon economies.
Almost any nice cook appreciates a "vegetables roast" as a novelty. It is a winter dish made by canning a mixture of vegetables.
Vegetable Roast.
Prepare corn, lima beans, tomatoes, string beans, okra, squash and eggplant as for canning separately. Mix those in varying proportions, letting the corn predominate. Add 2 or 3 medium sized onions to each quart of the mixture, run through a food chopper and stir until completely mixed. Pack into glass jars and sterilize. To prepare for serving, next winter, mix a portion with an equal amount of bread crumbs, a piece of butter, and 1 egg; season with salt and pepper, pack in a round baking dish and bake until brown. Serve in

slices with drawn butter sauce. The mixture may be added to soup stock.
Salted String Beans.
String the beans as for cooking, pack in stone jars, a layer of beans and a sprinkling of salt. Pack lightly, cover, and put a weight on top. To cook next winter, soak the beans over night in cold water, pour off and add boiling water and boil for one hour. Drain, add fresh boiling water and simmer until tender. Serve with butter, bacon drippings or white sauce.
Salt Sweet Corn.
Cut the corn from the cob and mix it with salt, allowing 1 pint of salt to 1 gallon of corn. Put the corn in a sterilized cheesecloth bag, pack in a crock and cover with a plate. Before cooking soak 1 hour in fresh water, drain and cover with boiling water, boil 1 hour, drain, add more boiling water, and when the corn is tender, serve with melted butter.
Pickled Corn and Beans.
Cook the corn and beans by a pickling process. Put whole ears of corn, or corn cut from the cob, or string beans into a clean sack and suspend in a barrel of urine. The corn ferments and gives an acid product.

PERSONAL NOTES

Mr. and Mrs. E. S. Clayton of Ave. B, have gone to St. Cloud, Minn., where they will make their home.

Mrs. George Will of Third street, who is in the Bismarck Hospital, where she underwent an operation, is recovering nicely.

Mr. and Mrs. J. A. Haney and children, of Avenue B, who are visiting at Mrs. Haney's home in Cresco, Ia., are expected to return the last of the week.

Mr. and Mrs. F. A. Knowles of Avenue A, are entertaining as their guests the latter's brother and wife, Mr. and Mrs. W. C. Haney of Marshall, Minn.

Mrs. Nellie Evans of First street, resumed her duties in the office of the county superintendent Thursday after a vacation spent in Anamosa, as the guest of Mrs. N. J. Walper.

Mrs. Cutter, who has been the guest of her son-in-law and daughter, Rev. and Mrs. H. C. Postlethwaite of the Presbyterian manse, left today on No. 4 for her home in St. Paul.

Mr. and Mrs. R. J. Beckley, who have been visiting Mr. and Mrs. E. H. L. Vesperman and relatives in Mandan, returned last evening to their home in Sioux Falls, S. D.

A. R. Mead, sales manager of the Lahr Motor sales company, has gone to Cass City, Mich., where he will spend his vacation with his mother. He will also visit other eastern points while there.

Mr. and Mrs. G. W. Cochrane and children of Second street, have returned from Oakes, where they have been the guests of the former's father, Mr. Eaton, pioneer resident of the state.

Mr. and Mrs. A. Rosen of Pearson Court, left today on an extended eastern motor trip to include points in Minnesota, Wisconsin and Illinois. Mr. and Mrs. Rosen expect to go as far as Chicago.

Cash Dunn and sister, Miss Ruth Dunn, who have been in the city the last week visiting their parents, Mr. and Mrs. J. P. Dunn of Third street, left last night on No. 1, for their home in Boise City, Idaho.

Mr. R. R. Lutz of Mandan, has for his guest her mother-in-law, Mrs. C. F. Lutz of Big Lake, Minn. Mrs. Lutz is in charge of the Congrega-

tional church of that place and will speak in the Mandan Presbyterian church Sunday.

Miss Anne Shepard, who has been spending part of her vacation in Fairbault, Minn., has arrived in the city and will remain here with her parents Mr. and Mrs. F. E. Shepard of Avenue B, until the opening of the fall term of St. Mary's school in Fairbault.

Mrs. J. P. French of Rosser street has gone to Big Stone Lake, Minn. where she will join her sister, Mrs. H. F. O'Hare for a week's outing. Mr. and Mrs. O'Hare and family who have been spending several weeks in the east will return with Mrs. French.

Mr. and Mrs. O. W. Fargo of Fredonia, N. Y., who have been the guests for the last two weeks of the latter's sister, Mrs. Myra Morgan of Second street, have gone to Fingal, where they will visit Mrs. Fargo's brother, C. E. Hatcheller. They were accompanied by Mrs. Morgan.

BANKER OPTIMISTIC OVER CROP OUTLOOK

"With unusually optimistic crop prospects as a whole, and with American business prosperous, the nation has every reason to rejoice and be hopeful for its future welfare and prosperity."

This is the statement made by Henry E. Cass of the Capital Security bank in speaking of business and crop conditions for the past month. He continued:
"Heavy precipitations on July 29 ended the heat wave in Minnesota, the Dakotas, Iowa, Wisconsin and Michigan and brought relief to the crops of the northwest which were managed the latter part of the month by the extreme heat."

"Very favorable news from the south and southeast concerning rain and the growth of crops indicated the biggest crop on record for states in these sections."

"The condition of the winter wheat crop on July 1 was 75.9 compared with 79.9 a month previous, despite unfavorable reports coming from sections of Kansas."

"Never in the history of the southwest have cutting and threshing of wheat been done under more favorable conditions, and it will be only a matter of a few weeks before this wheat will be ready for the miller."

"One of the most promising general signs of a bumper crop in North Dakota, if rain is received, is the lack of rust this year. The removal of the barberry bush is responsible for this favorable condition."

"Corn is tasseling in most parts of Iowa and the outlook throughout Nebraska is now fully normal while it is estimated Mississippi will double last year's corn crop. Minnesota crops are excellent."

"The gardening campaign has resulted in the planting of more than three times the usual number of gardens in the United States, and if the prospects relative to the late potato crop are not marred by adverse wea-

ther, the country's potato crop of 1917 will exceed every former production by many millions of bushels.

"The Bismarck, Mandan and Steele districts, (south central) and the boundary county of Emmons, report fairly good conditions. Flax on old ground is fair, though on the new breaking it is almost a failure. Wheat may run from five to eight bushels, perhaps for in some places. Where fields have been favored with showers, this estimate will run too low."

BUSINESS MEN BEGIN CAMPAIGN FOR FUNDS

Hope to Procure \$27,000 With Which to Procure Control of Hospital

Jamestown, N. D., Aug. 10.—A committee of local business men today started a campaign to raise a donation of \$27,000 in an effort to effect a change in the management of the Parkview hospital to the Sisters of St. Joseph. That the hospital will change hands on or about Sept. 1, is the consensus of opinion of those in close touch with the situation. The financial consideration involved approximates \$47,000.

MAE MURRAY.
Mae Murray the charming Lasky star, who will be seen at the Bismarck theatre tonight only in the Jesse L. Lasky production of "The Plow Girl," had her first taste of farming during the filming of some of the scenes of this picture. She was given a yoke of oxen and told to make a nice, comfortable furrow. According to reports, the oxen and the plow remained on the ground, the star at the plow handle, spending most of the time doing essential gymnastics. Finally the oxen, realizing that they had an amateur at the helm, ran away with Miss Murray still clinging to the plow handle. The star has announced that in the future she will do her plowing in a taxicab.

Lemon Juice For Freckles

Girl! Make beauty lotion at home for a few cents. Try it!

"Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost. Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless."

Precious Stones.

To clean precious stones: Wet precipitated sulphur monoxide with alcohol. A mixture of one part of washed flowers of sulphur and two parts of fine washed tripoli powder is also adapted for this purpose. The mixture, by means of soft leather, is rubbed on the stones. Places that are not accessible by means of the cloth can be treated with a small brush, a second brush being employed to remove the dust. If the gems are set in silver the sulphur must be omitted.

THURSDAY'S BEST BASEBALL RESULTS

WOMEN STARS WILL MATCH SKILL OVER TRAPS IN WORLD'S MOST COSTLY SHOOTING MEET THIS MONTH

MRS. VOGEL

BY PAUL PURMAN

The high cost of gunpowder, bird shot and other implements of war will cut down the entries in the grand American trapshooting handicap, to be held at the South Shore Country Club, Chicago, the week of August 20, but even high costs will not keep the more ardent trap shots out of the meet.

But although there will be fewer shooters at the meet more money will go up in smoke over Lake Michigan than ever before in an American trap shoot.

Shells are about 25 per cent higher than last year and last year they were more expensive than they had ever been before.

The big Chicago meet will develop a three-cornered battle for the women's championship of America now held by Mrs. D. J. Dalton of Warsaw Ind.

Mrs. Dalton will have to defend her honors against Mrs. Ad Topper of Texas, who last year broke all records for continuous shooting and Mrs. Vogel of Detroit, one of the greatest shots of the middle west.

More women are expected to enter this shoot than ever before.

The patriotic and martial spirit brought on by the war has caused women who formerly shot but little over the traps to take a great interest in this sport.

BASEBALL IS DEMANDING A CHANGE IN SYSTEM OF AVERAGES TO SHOW REAL VALUE OF PLAYER

BY PAUL PURMAN

It is only a question of time until demand for change in baseball statistics which will give a better clue on a player's actual value than the system now in use.

For several years critics have now and then pointed out the fallacies and short comings of the present systems of rating ballplayers, but the national commission, most reactionary of reactionary bodies, has failed to take notice.

The most revolutionary change in the history of baseball ratings was that adopted a few years ago by the American league in rating pitchers according to earned runs made off their delivery instead of on games won and lost.

The earned run system is, of course, the fairest.

Changes in batting and fielding averages could be made to be of great benefit to the game and show with more fairness the value of the players.

Several theories have been advanced suggesting means by which this could be accomplished.

Perhaps the most remarkable is one which would consider the number of bases secured on hits and the number of runs scored as the result of hits.

For instance last year Walter Pipp according to the present system of averages, batted .262 and ranked fifth in the list of batters. The average was based on 144 hits in 545 times at bat.

No account was taken of the fact that Pipp had to his credit, 20 doubles, 14 triples and 12 home runs for a total of 227 extra bases.

a record exceeded by only eight men in the league.

Jack Graney stood seventy-second in the list with an average of .242. But Graney had to his credit 41 doubles, 14 triples and five home runs, totalling 226 bases.

Isn't it natural to believe that either of these players are of more value to their team than the player standing near the top of the list, who bats around .280 and gets about 250 bases out of 225 hits?

It is evident that more scoring will be done on the longer hits will be done on the longer hits. Runs win ball games and the man who manufactures them, not he who builds up his own batting averages is of the most value to his club.

SPORT CHATTER

Al Mamaux has joined the Delaware County league. They probably have no training rules there.

The amateur middleweight wrestling champion has joined the army. Now maybe he will forget all about wrestling and become a good citizen.

New Yorkers are petitioning for Sunday baseball. Ought to go slowly, they might demoralize that proud city.

Johnny Kilbane umpired a ball game in Cleveland. Johnny evi-

dently doesn't care what happens to him.

An Oklahoma batter has poled out 35 home runs this season. It ought to be mighty soothing to a pitcher to have him come to the plate.

The welterweight limit is 142 pounds. Perhaps that's why Albert Badou claims the European championship. He weighs 154 pounds.

TO CLEAN YOUR HANDS

It is impossible to keep the hands clean when making repairs on the machine. A simple and economical way in which to cleanse them is as follows: Mix a small quantity of kerosene and lubricating oil together and rub thoroughly into the pores of the skin. The oil should then be removed by wiping the hands with a cloth which has been saturated with a little gasoline or kerosene. This should be followed by the ordinary wash with soap and water. It is poor practice to attempt to remove the dirt from the hands by bathing them in gasoline, as this will cause some of the matter to become deeply imbedded in the skin.

TO GIVE EXPLOSIVE CHARGE

Device Forces Gasoline in Form of Fine Spray Directly into the Intake Manifold.

The spray primer is a device which draws gasoline direct from the supply line running to the carburetor and forces it in the form of a fine spray directly into the intake manifold. The action is performed by a plunger pump fitted to the dash. It is only necessary to draw out the pump and push it in again, to give the motor a highly explosive charge.

No Rest for the Weary.

"How was that little country town where you went to rest for a week or two?"

"Oh, just like all the other little country towns. Every night the family I was staying with dragged me out to a moving picture show."

Here

UNDISPUTED CHAMPIONS

OF STATE TO DISBAND

Will Be Last Opportunity for Fans

to See Kirk's Kolts in Action

This Year

Bismarck, the undisputed baseball champions of North Dakota and unquestionably the best independent baseball team the Slope ever has produced, will give Bismarck fans a last opportunity to see them in action Sunday afternoon, when they take on Stanton here in a doubleheader, which promises to be the biggest baseball battle of the season.

The strong Stanton aggregation is the only team in North Dakota which has taken a series from the champs, winning two games out of three. The Stantonites have kept their fast team intact, and they come here Sunday prepared to uphold the lead which they have over the champs.

Christy and Goldie will perform Sunday. Both are in splendid trim. Stanton is coming down tomorrow afternoon with a trainload of fans, and it is anticipated that Bismarck fans will be out en masse Sunday.

Bismarck closed the New Rockford series by taking six games, losing five and tying two. New Rockford had been conceding the state championship, and it lowered its crest to Bismarck when, after losing the series, it declined to come here for a season's fight of five games.

After Sunday's game Bismarck will disband. The season has been successful from the standpoint of sport, and has been reasonably satisfactory from a financial viewpoint.

RAY CHAPMAN HELPS INDIANS

Best Shortstop in American League in 1915 Again Back in Stride—Is Speedy on Base.

One factor in the Indians' getting into the first division is the return of Ray Chapman to the form he displayed in 1915, when he was known as the best shortstop in the league when every department of the game was considered.

It is feeling brilliantly again, is hitting over .300, has made many extra base hits, is getting on bases consistently, leads in stolen bases and is tied for second honors as a run-getter. His speed on the bases has been marvellous, especially when one recalls

Ray Chapman.

that three years ago he broke his ankle and a year ago was out a month with water on the knee, an accident that many thought would result in his slowing up.

SOCIALISTS ELECT TRAITOR AS HEAD

Petrograd, Aug. 10.—The All-Russian Social Democratic Maximalist, an internalist congress, opened here today. The congress selected as honorary president, M. Lomine, the radical socialist leader, and others who have been arrested for high treason.

Illinois Mines Tied Up by Strike

Sycamore, N. D., Aug. 10.—Arthur Lakey, of O'Dell, Ill., violinist with a group of entertainers appearing at the chautauqua here, was drowned in Lake Hiawatha when he was taken with cramps when about 50 feet from shore. Two companions attempted to rescue him but their efforts were unavailing. The body was recovered and shipped to the boys home in Illinois.

Lightning Kills While Man is at Work in Hay Field; Comrade Unhurt

Bowman, N. D., Aug. 10.—Irvin Kestler was instantly killed when he was struck by lightning while at work in the hay field of D. H. McDonnell, near Camp Creek. The team which Kestler was driving was also killed, but McDonnell, who stood within four feet of the wagon, was not even stunned.

Executive Mansion Opened to Four Men Of Co. I by Appeal

Four boys of Co. I are guests at the executive mansion as a result of the Tribune's appeal for beds or bedding for the soldier boys. Governor Frazier opened his home to these men Wednesday night, and they are very comfortably established in two spare rooms in the gubernatorial mansion.

From the bare planks of the armory floor to a state bedroom in the state white house, which has had as its guests some of the foremost men of the nation, is some transition, but the boys "had it coming," and they are thoroughly enjoying the experience.

Former Jamestown Boy Charged While Working at Vimy

Jamestown, N. D., Aug. 10.—Howard Shipley, former Jamestown boy, in a letter to relatives here, tells of being severely wounded in the battle of Vimy ridge, on the west fighting front in Europe, April 10, and is still on furlough while recovering from his wounds. Shipley was hit in the right arm and leg by a piece of shrapnel. "We had a pretty tough winter but put the Huns out of a good position and made them like it," writes Shipley. "I've had some close calls but am still able to find the cook house. If Fritz don't get me I'll be home to tell you about it."

HOPKINS IS NOMINATED BY PRESIDENT WILSON

Washington, D. C., Aug. 10.—Sheldon G. Hopkins of Cheyenne, Wyo., was nominated today by President Wilson to be assistant secretary of the interior, succeeding the late Boo Sweeney.

LOSE EXTRA-INNING GAMES

Giants Begin to Get Fidgety After Contest Has Gone Beyond the Regulation Distance.

One thing which is absolutely essential for the Giants to acquire to be considered a real high-class team is the ability to win extra-inning games. Writes Frederick G. Lieb in the New York Sun. Imagine a team like the old Cubs or the Athletics of a few years back being considered beaten after a game had passed the nine-inning stage. The Athletics practically were unbeatable in extra innings. Yet on the Polo grounds as soon as a game goes into the tenth inning the fans say "Good-night."

In a way, the mentality of the Giant players is largely responsible for this so-called inning flinch. They have lost so many extra-inning games at home during the last two seasons that they get fidgety after a game goes beyond the regulation distance.

Tribune want ads will bring results

HALL CHARGES FAKE TAGS WERE USED IN FARGO

Fargo, N. D., Aug. 10.—Wholesale violations in Fargo of the state automobile license law by means of fake tags, transfer of tags from one car to another and abuse of the dealers' tag privilege are charged by representatives of Secretary of State Thomas Hall, who is charged with the enforcement of the law.

William Meyer, special auto tax investigator, after an investigation which he and others have been making in Fargo for several days past, yesterday went before State Attorney A. W. Fowler and swore out 11 warrants against Fargo and Cass county persons charged with violation of the law.

District Judge A. T. Cole issued the warrants, which were served last night. Those arrested, all ordered to appear in court this morning, are:

Those Accused:
The Horton Motor Co.
J. G. Bristol.
J. F. Smith, Buffalo
J. L. Henn.
A. J. Craig.
Wheelock Auto Co.
F. H. Nystrom
C. W. Seebold
Henry Alberts.
Frank Allen.
J. M. Balkcom.

These men and firms are charged with running automobiles without licenses. Some are said to have used Minnesota licenses on North Dakota cars, others imitation tags painted so skillfully as to exactly resemble the state tag at a distance.

Abuse of the dealers' automobile license tag privileges, duplication of licenses, and operating cars in North Dakota under Minnesota license tags, resulted today in the conviction of eight men when arraigned before Judge Cole in district court here today. Fines aggregating \$60 were collected. A vigorous campaign is being waged by Secretary of State Hall to enforce the automobile license laws of the state.

George Cohan Real Treat in Broadway Jones Last Night

Many Bismarck folk who put the yank in Yankee Doodle, and is recognized as America's most eccentric comedian and producer. They never saw him to better effect than he appeared last evening in the title role of "Broadway Jones," a small-town youth whose home town in Buckeye land wasn't big enough for him, and who journeyed to Gotham to make a real splash, which he did.

It was a typical George Cohan show, with a laugh in every line and a smile in every scene, and it was complete, even to a bit of the Cohanese dancing, without which no Cohan show would be complete. Two big houses saw the picture, and went home in a happy frame of mind to tell friends, who with fit the Auditorium tonight, when "Broadway Jones" is again presented.

Enough Bedding for Continuous Pillow Fight, Says Welch

Two days ago Capt. A. B. Welch of Co. I chanced to remark that some of his boys were sleeping on the bare boards of the armory without coats or blankets. The Commercial club heard of it and issued an appeal for bedding. As a result the armory was flooded with sufficient blankets, comforters and mattresses to accommodate a regiment. The response was not confined to Bismarck alone, but bedding piled in by express from towns within a radius of 100 miles.

NEW EAST WARD SCHOOL TO BE READY SEPT. 10

Jamestown, N. D., Aug. 10.—Members of the board of education, in regular session, announced that the new east ward school, now the new completion, will be opened to the students when the city schools resume sessions Sept. 10. Work on the new school house is progressing with great rapidity.

Principal C. C. Plank of the high school has resigned his position, and his resignation has been accepted by the board. Mr. Plank will accept a position with the Northwestern School Supply Co. with North and South Dakota as his territory.

INDIAN IS HEALTHIER

Uncle Sam's Fight to Save Race Is Bearing Fruit.

Trachoma Largely Subdued in Schools and Infant Mortality, Once Appalling, Reduced.

Those who think of the Indians as members of a dying race are not acquainted with the progress of the work carried on in their behalf by Uncle Sam's department of the interior.

To struggle against tuberculosis and trachoma, and the fight to lower a high infant mortality rate, are generally conceded to be the greatest problems confronting medical men of the Indian office. Supplementing the work of regular agency doctors, special physicians at intervals visit the various reservations, performing eye operations, caring for defective teeth and spreading information.

Already trachoma has been very largely subdued in the schools, and such new cases as appear generally come from outside. Acute cases are segregated and treated with regularity, and at present a large majority of the cases known are among the old and feeble. The unhealthy manner of living that marks the period of transition between the old life and the new is fast passing.

The building of sanitary homes is urged and the value of clean food and cooking utensils emphasized. As a result of the campaign, there has been within the last three years a very noticeable falling off in the number of illnesses and deaths from tuberculosis.

Last year structures valued at \$775,855.57 were built on Indian reservations, and included practically everything from frame cottages and office buildings to heating plants and flour mills and laundries.

The younger generation now knows that a sturdy child grows into a sturdy man, and great care is taken of the young mother in childbirth. Before the present administration assumed control, three-fifths of the little Indians died before they were five years old. The introduction and enforcement of modern methods has reduced this appalling percentage, and the health of the Indian is now, as a whole, far better than it has been at any other time since he came under the influence of the white man.

Human Thirstedown.

A cav young man you'll often meet who says he's a light upon his feet. But if the sun's truth be said, He's even lighter in his head.

Real Optimism.

"Still thinking of buying a little farm some day?"

"Oh, yes," replied the optimistic flat dweller. "I never stir the earth in my window boxes with a trowel that I don't dream of the time when I will own a plot of ground large enough to produce a whole can full of angle worms."

Wasted Oratory.

"Why do you refer to me as a 'wind-jammer'?" asked the orator, in some heat.

"Because you talk so much."

"Sir, my speeches are informative."

"Maybe they are but the trouble is they don't inform me of anything I want to know."

Not the Man.

"I've been looking everywhere for some kind friend to lend me a five-spot," said the chronic borrower, greeting Mr. Graceland thusly.

"Far be it from me to discourage you," answered Mr. Graceland, with a grim look, "but I fear that your quest is not yet ended."

Extend Phone Lines

Companies Enlarge Systems to Aid Uncle Sam's War Work.

Government Can Now Command Instantly About 20,000,000 Miles of Wire Covering Country.

The right arm of successful military operations is ability to communicate rapidly and maintain that communication. That is vitally necessary in preparation, no less than during actual operations. To that end Uncle Sam's council of national defense has been co-operating with the various telephone and telegraph companies. It has received very hearty assistance, and a statement just made by the committee on communications of the advisory commission of the council of national defense gives an idea of the extent of this help.

CITY LOTS RENTS FARM LANDS

TAX COMMISSION SAYS RAILWAY ASSESSMENTS ARE NOT HIGH ENOUGH

Looking for Something to Boost
to Gain Increased Revenues
for State

When the state board of equalization holds its first formal meeting, following the return of the state auditor, who is junketing about other state capitals, the state tax commission will ask that the assessed valuation of railroads operating in North Dakota be boosted \$9,798,979, about 19 per cent over the 1916 assessment. The tax commission would increase the Great Northern from \$20,150,048 to \$24,823,693; the Northern Pacific from \$16,132,997 to \$21,207,076; the Soo from \$16,759,143 to \$19,853,776; and the Milwaukee line from \$2,494,698 to \$3,838,314. The state board of equalization faces the necessity of increasing the assessed valuation of the state about \$22,000,000. It is claimed, and the bulk of this added burden will fall on farm lands.

FRAZIER AND FRASER AT FORT SNELLING FOR OFFICERS' GRADUATION

Governor Lynn J. Frazier and adjutant General G. Angus Fraser left last night for Minneapolis to attend the "commencement exercises" at Fort Snelling, where North Dakota hopes to graduate a fair share of commissioned officers from its 200 training camp candidates.

"I'm Going Away from Here!" Writes "Sat" from the Draft Rebellion Country

The original of the one-column sketch above, Parney Fixco, is still out on the trail of draft rebels. A Seminole guide, he knows every rock in the belt, especially the ones that make the best gun rests. Two sketches were made of the oldish man in the lower picture. He took the only one he knew about, but Satterfield "hold out" one, up his sleeve, for Daily Tribune readers.

BY R. W. SATTERFIELD.

Holdenville, Okla., Aug. 6. (By Mail)—As soon as I finish writing this and mail these sketches I'm going away from here. I've seen all there is to be seen. And I want to remember what I've seen. And if I stay around here I run the risk of getting a few holes through my memory—which would impair it.

At that, have "and edge" on one photographer I met. He had some excellent "action pictures." He didn't send them in to his home office. Instead, he sent a telegram saying his plates had been stolen. Some of the draft rioters decided their faces wouldn't look good in the paper. Most of them expect now to be caught. But they aren't hankering after helping pile up evidence against themselves.

Understand, I am a courageous man. But I think a drawing on paper is worth two in the head, unless the head is resting easier than it rests in a siver in the "Indian country" today. I have a vivid recollection of the oldish man with the chin whiskers and the big hat—and less I forget, a gun with two barrels—who met me about 20 miles from Holdenville, out where there was a hill of rocks on one side and some scrub timber on the other, and nothing in the way of a cinch track for a good runner. "What might be your business, young man?" was his salutation. He didn't exactly hold me guilty until proven innocent, but he required convincing proof of innocence, just the same.

I sketched him on the spot. It was a novelty—rather diverted him. All men need diversion from such serious business as he was engaged in. So I may be said to have walked to safety on my hand.

He also liked the sketch I had in my notebook of Parney Fixco, Seminole Indian guide for the posse. He knew Parney. They used to be friendly enough. But he said he'd rather see the sketch, just now, than Parney himself—that it would help him fix Parney's features in his mind. He was a tenant farmer. I imagine he'll be back on the farm within a day or two. He's through rebelling. But the point is, he doesn't want anyone to know he's been off the farm. I gave him the sketch I made of him. But I had roughed in another he didn't know anything about.

It's comparatively safe here at Holdenville—during the day. I leave before supper time. I don't know whether the train I am going to connect with carries a diner. But I'm not particular.

If they were all like the rural negro I watched the Holdenville sheriff and his deputies and the draft board examine this afternoon it wouldn't be so bad. He hadn't registered, or done much of anything else, in the war line.

"Do you claim exemption?" they asked. "I don't exactly git dat, boss."

"Is there any reason why you shouldn't join the army and fight?" "Oh, yes, boss! Of course! I's scared!"

Perhaps I should not have told this incident or sketched the scene. I wouldn't want anyone to draw any parallel between that rural negro and an intrepid newspaper artist.

FOUR HAVE NARROW ESCAPE; LIGHTNING STRIKES ELEVATOR

Sykeston, N. D., Aug. 10.—Four men narrowly escaped death when lightning struck the Occident Elevator here during the course of a heavy electrical storm. The four men were sleeping in the drive way of the elevator, the bolt striking the roof, coming to the floor where the men were sleeping, giving all a severe shock.

This rural negro, brought before the draft board by Sheriff Turner of Holdenville and his deputies, claimed exemption after he found out what it meant.

EXEMPTION CLAIMS IN STUTSMAN RUN OVER 50 PER CENT

Dependent Families and Agricultural Occupations Taking Leadership

Jamestown, N. D., Aug. 10.—Exemption claims in Stutsman county from the first 150 men called before the Stutsman county exemption board for physical examinations are running well over 50 per cent, according to a statement issued by the board last night. "Dependent families" and "needed for farm work" constitute a majority of the exemption pleas.

From the first 150 men examined only 18 were discharged because of physical unfitness for service. Fifty men are being examined every day by the Stutsman county board.

DYNAMITE PLANT FOUND UNDER SALOON; SUSPECTS PLACED UNDER ARREST

Two Men Recently Ejected From Antelope Drinking Place Held Responsible

Antelope, Mont., Aug. 10.—Four sticks of dynamite and a fuse which had failed to work were found under a Main street saloon by some boys who were collecting empty beer bottles. The dynamite is believed to have been planted by Carl Johnson

CHAMBER OF COMMERCE BOOSTS GRAIN RATES

Minneapolis, Minn., Aug. 10.—Members of the Minneapolis Chamber of Commerce have voted to amend the rules of the association to make possible the introduction of a new schedule of commission rates on grain, increasing the present rate of one cent a bushel for wheat to two cents, and like advance for other grains handled on a percentage basis.
